**What changes in 2023 in the fight against the mafia. Commitments and prospects.
Dedicated to Nazzareno Bisogni".
Saturday 17 June, from 3 pm, at the Biblioteca delle Oblate in Florence, Sala Sibilla
Aleramo**

Florence, 16th June 2023 - The **Caponnetto Foundation** celebrates the 20th anniversary of its foundation with an appointment, Saturday 17 June, from 3 pm, at the Biblioteca delle Oblate in Florence, Sala Sibilla Aleramo, entitled "**What changes in 2023 in the fight against the mafia. Commitments and prospects. Dedicated to Nazzareno Bisogni**". A summit, open to the public, which will be attended by numerous representatives of the anti-mafia movement.

"An important anniversary for the **Caponnetto Foundation** - said the deputy mayor **Alessia Bettini** - which for 20 years has been carrying out a great job not only of data analysis, but also of raising awareness among young people to promote the culture of legality. We are 30 years after the Georgofili massacre and we must always remember that the mafias are still there: it is necessary to continue to monitor and transmit the culture of respect for the rules, without ever being indifferent. It is very nice - concluded the deputy mayor - that the public initiative of the **Caponnetto Foundation** takes place at the Oblate library, a place of culture, social protection and democratic and critical citizenship. Because when there is knowledge there is always attention, vigilance and awareness".

"After 20 years of the Foundation's birth, we have decided to return to Florence with our usual anti-mafia summit. Today - underlined the president of the **Caponnetto Foundation Salvatore Calleri** - it is more important than ever to understand the mafia and the 2.0 prospects for the fight against the mafia in our country, at a time when funds from the PNRR are arriving, of which 2 billion in the Florentine metropolitan area, and in which the mafia, let us not forget, invoices 18 billion in Tuscany, 230 billion in Italy and has a treasury of three thousand billion in banks around the world without Ivan".

"The fight against the mafia – added the former member of the anti-mafia investigation department **Renato Scalia** – must be constant and daily. Certain hesitations cannot be tolerated, such as widening the scope of public procurement, trying to limit controls, further weakening telephone interceptions, and other measures that make the fight against mafia-type crime less effective".

"30 years after the massacre in via dei Georgofili in a historical period in which the mafia has changed and at the same time has become modern and tribal, on the twentieth anniversary of the birth of the **Caponnetto Foundation** - added the president of the Commission for equal opportunities, peace, human rights , international relations, immigration Donata Bianchi – the Foundation has decided to hold an extraordinary anti-mafia summit, the 32nd, with the prospective title: 'What will change in 2023 in the fight against the mafia. Commitments and prospects'. Historically, the summit was born to compare anti-mafia minds and to establish the best counter strategies".

"An important twenty-year anniversary - continued the president of the Policy Commission for the promotion of legality and urban sustainability **Alessandra Innocenti** - for the role played by the Caponnetto association which bears the name of a magistrate who we will never forget for his strength and his desire to defeat Cosa Nostra with his precious investigations.

An association that seeks to keep attention high on a phenomenon which unfortunately has not been

defeated, but, on the contrary, has changed the type of action and which is no longer only relegated to some Italian regions, but also present in our region. The association, with its reports that help to understand the phenomenon of organized crime and its projects dedicated to schools, keeps attention high, which we must never lower, to strongly guarantee legality. The choice to hold the summit at the Biblioteca delle Oblate was good, where two rooms have recently been named after **Dario Capolicchio** and **Giovanna Maggiani Chelli**, victims of the mafia. To conclude - said **Alessandra Innocenti** - have a good life **Caponnetto Foundation** ".
